

MRLs sorted by substance

NOTE:

This document is a tool for Commission employees which is being made public in the interest of transparency .

It lists MRLs in the annexes to Council Directives 76/895/EEC, 86/362/EEC, 86/363/EEC & 90/642/EEC.

Its content is for informal use only. The definitive MRLs are those in the Official Journal.

The user is invited to beware as the Commission cannot take responsibility for any eventual errors.

This version of the database was updated on the 3rd of November 2004.

It will be corrected, enhanced and modified as and when necessary.

The following product groups are represented.

Products of animal origin are given a CN code and a short description. The full description of these products is listed below:
